

On the lookout for a new Ophthalmology role?

Veterinary Ophthalmology Clinician Position for Maternity Cover

We are offering an exciting opportunity for a board-certified or residency trained ECVO or ACVO colleague to join our excellent and dedicated Ophthalmology Service. You'll become part of our Specialist-led multi-disciplinary clinical team, which includes highly motivated residents, specialty and general interns, highly skilled nurses, and incredible support teams. The advertised position can be tailored to either full-time (four days per week) or part-time.

Our service boasts fully equipped Ophthalmology-specific consulting rooms, as well as an Ophthalmology surgical suite complete with slit lamp biomicroscopes, direct and indirect ophthalmoscopes, a fundus camera, an anterior segment camera/macro-lens, tonometers (tonovets and tonopens), gonioscopy lenses, an ERG machine, an operating microscope with a viewing screen, a phacoemulsification machine, and a cryotherapy unit. Our Ophthalmology service also conducts regular BVA/KC/ISDS EYE testing sessions. Additionally, we have a 1.5T MRI, a state-of-the-art CT scanner, digital radiography, and high-end ultrasound units. An in-house laboratory with a cytology microscope is also available. We collaborate extensively with other services within the hospital to optimize patient care.

We offer an exceptional remuneration package, including five weeks of holiday (pro rata) plus bank holidays, an industry-leading contributory pension, and a competitive salary commensurate with experience, among many other benefits.

Furthermore, we support further career progression with a generous CPD (Continuing Professional Development) allowance and associated time off. CVS provides a wide range of internal CPD courses, not exclusively focused on clinical work, allowing those interested in diversifying their skill set to benefit. Additionally, there are opportunities for clinical research and teaching.

We are deeply committed to supporting the well-being of our staff. Our wellness program includes an Employee Assistance Programme with Health Assured, an optional health shield cash plan, Mental Health First Aiders, and Wellbeing Champions within the practice. We also have a refresh fund that provides breakfast mornings, among other initiatives.

Lumbry Park Veterinary Specialists is a large specialist-led multidisciplinary referral hospital providing veterinary referral services across the South of England including London, the south coast and the Thames Valley. Our services include Ophthalmology, Anaesthesia and Analgesia, Cardiology, Dermatology, Diagnostic Imaging, Emergency and Critical Care, Internal Medicine, Neurology and Neurosurgery, Orthopaedic and Soft Tissue Surgery; and Physiotherapy.
