

Veterinary Ophthalmologist Opportunity!

Melbourne, Australia! Consistently rated one of the world's most liveable cities, with leading education, healthcare, safe & family friendly neighbourhoods plus stunning natural beauty.

If you are looking for a career adventure in a leading Ophthalmology hospital in a location that the whole family will love, then we have the opportunity for you!

Animal Eye Care, Melbourne is at the pinnacle of veterinary healthcare, specializing in the forefront of ophthalmological services for animals. Known for our collaborative and compassionate care, innovative treatments, and a deep commitment to the health and well-being of our patients, and we're expanding our team!

The Opportunity:

We are seeking a passionate and experienced Veterinary Ophthalmologist to join the team at our dedicated ophthalmology-only-practice building in East Malvern, in the leafy suburbs of Melbourne, Australia.

This is a fulltime position as a staff Ophthalmologist who is willing to work in a collaborative environment and assist in the training of our residents, and final year Veterinary Students. Interest in a long-term association with Animal Eye Care is desirable but we would also be open to long-term locum stints.

Eligibility for Veterinary registration in Victoria, Australia is essential. Please contact the clinic for more information on registration requirements.

Please note that there have been recent changes to the Australian Veterinary registration and VISA process, making Australia more accessible for short-term or long-term employment options.

We would be able to accommodate short term position starting from 3 months to 12 months. Longer term – up to 4-year visas are available.

If you have specialist qualifications you will be able to work with us, practice limited to Ophthalmology, even if your primary degree is not recognised for general veterinary registration.

The Hospital:

Animal Eye Care runs a busy referral-based ophthalmology practice, with a high medical and surgical case load. Patients include companion animals, exotics, and equine cases.

- Strong focus on *continued education*: We have weekly rounds/journal club, monthly ocular histopathology for residents, and our practice always strives to have the best and most up to date care for our patients.
- Strong and efficient *communication* between our clients and our referring vets, including the use of Galaxy - Animal Intelligence Software
- Experienced *support team*: We have dedicated, specialised-trained and motivated nursing team that provide an integral contribution to the practice.
- The *latest technology and specialized equipment*: state of the art and up to date equipment and techniques are used to provide the very best services to our clients and their animals. Including but not limited to the latest:
 - Abbott- AMO WhiteStar Phaco machine with Fusion Fluidics
 - Leica ophthalmic operating microscope
 - Dedicated Ultrasound machine
- Supportive team environment focused on true *work-life balance*:
 - Flexibility in roster, including a 4-day work week.
 - Limited afterhours roster (no calls after 10pm weeknights and 6pm weekends)
 - Paid parental leave.
 - Access to a range of lifestyle benefits including Wellbeing Gateway Access, fitness passport, Medibank Corporate Health cover and other amazing options!

Embark on a rewarding journey where your expertise will shine and contribute to setting new standards in veterinary ophthalmology.
